SEMI-FORMAL DECEMBER 21

P.U.C.C. TRAMPLES INDIANA CENTRAL

Showing the poise a great team should, PUCC won its first game of the season by downing a good Indiana Central College freshman team 67-55.

Chuck Rayson led a well-balanced scoring attack with 16 points on 5 baskets and 6 freethrows. Harry Rebey, John Eckert, Bob Tolan, and Jerry Jonas scored 16, 14, 12 and 10 points respectively to follow up the team's leading scorer.

(Continued on Column 3, Page 2)

Front Page Across the World

AT THE CAPITOL and across the U. S. the big news of Thanksgiving week was that President Eisenhower had bounced back within three days from his slight stroke. The President followed up his dramatic comeback by going to his farm in Gettysburg, Pa.

IN WASHINGTON Mr. McElroy, Secretary of Defense, reversed a previous decision to mass-produce only one of the intermediate-range ballistic missiles, either the Army's Jupiter or the Air Force's Thor, and he ordered immediate output of both of the 1,500 mile missiles in quantity.

PARIS FRANCE. Protesting over a recent sale of British and U. S. arms to Tunisia, 300 young Frenchmen marched on the U. S. embassy shouting "Americans go home!" and "Algeria is French!" These youths show the fears that the French have, and that is that these arms will find their way to rebels of Algeria and be used to kill French troops.

JAMES H. DOOLITTLE has been appointed to a special committee of scientific advisors, with the aim of increasing our scientific strength.

MOROCCANS REVOLTED against Spain last week in the Spanish colony of Ifni, on the west African coast. Spain rushed jet fighters, bombers, and an airlift of troops to try to smash the rebellion. Trouble threatened to spread further when neighboring Morocco charged Spanish troops across its borders.

THREE RECORDS ARE SMASHED BY AIR FORCE JETS. Four Voodoo F-1012, jet photo planes of the Air Force, sped across the U. S. November 27 to break three transcontinental nonstop records set by the Navy. All the planes were refueled in flight. The best time was Los Angeles to New York in 3 hours and 5 minutes.*

Condensed from NEWSWEEK

Pointed for Purdue

DECEMBER

- 21—Last school day this year (Hooray!)
- 21—"Winter Wonderland" to be held in the lounge.
- 25—MERRY CHRISTMAS!
- 31—New Year's Eve (take it easy!).

JANUARY

- 1—HAPPY NEW YEAR!
- 2, 3—Tour of Standard Oil (free lunch).
- 6—Classes resume (only 15 more days).
- 11—Basketball game—Cook Co. Hospital (here).
- 14 or 21—Lecture—C. F. Kos-sack, Head of Math Department.
- 17—Basketball game — Joliet (there).
- 19—Basketball game—Ball State Freshmen (there).
- 25—Last day of semester.
- Basketball game—Thornton J. C. (here).
- 28, 29—Tour of Standard Oil.

Did you hear that they are not drinking beer in Milwaukee anymore?

Why?

Because Milwaukee lost the opener.

CONCERN OVER CONTROL

(ACP) — Similar concern about the freedom of a responsible student is reflected in Dave Maney's "View Point" column in the AUBURN PLAINSMAN, Alabama Polytechnic Institute, Auburn, Ala. Here he develops his idea that "the morals of a student are his own."

I've often wondered about the set up of the university with regard to their control of the private lives of students. There seems to be a tendency in many states, including Alabama, for the university to lessen their influence on the extra-curricular life of the student. If the church school, which was once Auburn, could be compared with the university that is Auburn today, the change would be quite evident.

At Auburn, however, the relinquishing of this control has rolled to a halt. Many of the faculty and administrative personnel here still cling to the belief that it is the duty of the university not only to train and educate minds and bodies but also to regulate and govern the moral standards of the students. This may be well and good. It does seem never the less (Continued on Column 4, Page 2)

Student Council Plans Dance, Assembly

The major as well as the minor problems of the Winter formal and Christmas Assembly were discussed and solved at the December 4 meeting of your Student Senate.

After a call to order by Phil Szpiech, the roll was taken. The minutes of the last meeting were read along with the Treasurer's report and were approved by the Council.

Under the heading of old business Jim Kogenis' Nickname Committee submitted their selection of five names, for our athletic teams to the Executive Board. The Executive Board will choose the nickname to be used at a later date. The invitations to alumni for the Christmas formal were addressed and sent on December 6. Lee Sorensen submitted his report on what has been accomplished for the Christmas Assembly.

Rob Svetovich volunteered to buy the Christmas tree for the Christmas-tree-decorating party which is to be held December 13. Dancing and refreshments will be served at this party. Phil Szpiech asked for the co-operation of BOILERMAKER and Council members in keeping Room 5 orderly and quiet.

Under new business Jerry Engerski asked for an article of apology to be printed in the HAMMOND TIMES for the accidental omission of Council members names from a recent College Corner article. Bob Foster moved that a committee should be established to study the possibilities of a Student Activities Union and to (Continued on Column 3, Page 2)

Center Releases Enrollment Figures

Purdue Calumet Center has released statistics giving the total number of students enrolled at the Center this fall from each high school in this area. These figures include students registered in the degree program and the technical institute. Not included in this count are students in Purdue's various industrial classes.

A total of approximately 300 graduates of the Hammond high schools are in attendance at the center. Hammond High leads with a total of 112 students. Hammond Technical Vocational has 64; Bishop Noll, 53; Clark, 40; and Morton, 31.

The total from Gary schools is 192, Gary Emerson leading with 42 students. Lew Wallace has 31 students; Horace Mann, 30; Gary Froebel, 22; Gary Tolleston, 18; Calumet Twp., 16; Gary Edison 15; Gary Roosevelt, 13; and Gary Wirt, 5.

The number of East Chicago students attending the Purdue Center is 67 from Washington and 43 from Roosevelt.

Chicago schools are well represented with a total of 24 high schools and 135 students. Chicago Bowen has 29 of this total and Chicago Vocational, 26.

Forty-two students come from Bloom Twp. High School in Chicago Heights and 40 from Thornton Fractional in Calumet City. There are 34 from the Thornton Twp. school and 31 from Whiting High School. A total of 154 are from the various south suburban communities in this area.

Bids for Formal Now On Sale

Bids for PUCC's winter semi-formal, entitled "Winter Wonderland," are now on sale. The price is \$3 per couple.

Bids are being sold by most of the Student Senate members. There is a table set up in the lounge where students can purchase bids throughout the entire day.

The enchanting music of Mickey Isley and his orchestra will float through the air of this dancing dreamland. The music will begin at 8 o'clock Saturday, the 21st of December, and last until the wee hour of midnight.

NEW COURSE AT PURDUE

Purdue University Calumet Center will offer a graduate level civil engineering course titled Advanced Reinforced Concrete for the spring semester which begins in January. The class will be taught by Gustav Florin, assistant professor of civil engineering at the Center. The class will meet Monday and Thursday evenings from 6:30 to 8:00 p.m.

Wanna Know What's Been Going On In Room Five Lately?

For the past few weeks I've noticed a lot of hustling and bustling around Room 5, so I decided to go and investigate. Your roving reporter wanted to see what was going on at these meetings. When I poked my nose in the door during a meeting of the decoration committee, I found out all kinds of crazy things. What they were doing!!! Man, oh man! They, Jerry Engerski and his committee, were literally revamping the lounge (on the blackboard, that is) with their ideas for decorating it.

The first thing which will darken your sight when you come down to the lounge will be the tunnel you will be walking through to enter it. They say it will be made of chicken wire and napkins (not very stable, I'd say). The next thing to confront you will be a small forest. There will be several fir trees to your left (they may even make a real fur tree). As you enter and walk to the center of the floor, you will see that the posts will have been replaced by gigantic Christmas tree. (Couldn't think of anything cool to say about this.)

The next thing you will see is a gigantic sleigh, thirty or forty feet long and seven or eight feet wide, at the side of the stairs. This sleigh was considered too large to get into the building, so they (Continued on Column 4, Page 2)

Robert Eats Shaving Cream

Before our first basketball game on November 21, which was against Joliet, a pep session was held in the lounge at noon.

Our entertaining Master of Ceremonies, Rob Svetovich, opened the proceedings by making a few derogatory remarks about the Women Marines. Bernardine Baum, an ex-Marine, jumped out of the audience and slammed Rob in the face with a nice gooey cream pie. However, Rob didn't heed the warning to watch what he was saying. It wasn't long before he said something that antagonized the rest of the audience, and four thugs jumped onto the stage and clobbered Rob. Another infuriated member of the audience finished the job by blasting Rob with a .38 special.

Since Rob was immobilized, Lee Sorensen came out and carried on the performance. Lee and the other yell leaders—Mary Haburay, Joyce Nemeth, Annette Miller, and Fred Newton—led the students in several rousing yells.

The members of the team were introduced by Coach Hayes. The pep session was concluded with a loud cheer for the team.

Laissez Faire Party

"Casualness" was the theme for the Laissez Faire Party held on November 16th. There were about fifty PUCC students whose main (Continued on Column 4, Page 3)

MERRY CHRISTMAS

The members of the BOILERMAKER staff wish all students and faculty a Merry Christmas and a Happy New Year. (May your grades be better than ours.)

There is one thing which must be remembered during this coming holiday, and that is that you are going to be attending a few parties. Remember, the school needs your money; so come back next year safe and sound with all that vim, vigor, and vitality you had when you started last September. Seriously, watch those icy roads and short stop signs—dark parks, etc.

EDITOR

The Challenge

In the wake of recent Russian scientific achievements it has become evident that the United States is behind or is falling behind in some important scientific fields. The launching by the Russians of the first artificial earth satellite came as a surprise to most of us because we had assumed ourselves to be the leader in this field and because we were not giving its development our all-out efforts. Realizing that we are behind, the United States is accelerating its missile and rocket program in an effort to regain the lead. Let us hope that we do get back into the lead and stay there..

Are we falling behind in other fields? Is the United States to become second in power and achievement? What is the future of the United States? The future of the United States is what we make it. As time goes on, new discoveries will be made; the question is, however, who will make them and how will they be applied to mankind? We can become engaged in an arms race to see who can build what weapons to destroy the other, or we can unite our efforts to make living better for all men. Whatever the race will be, the United States must be the leader.

The future will depend greatly on science and engineering. We, the students of today, are to be the scientists and engineers of tomorrow. Will we be able to carry on the work already begun? Will we be capable of making great new discoveries and to bring about new developments? Will we be able to accept the challenge of the future? Our success depends greatly on what we are learning now in our university training. Let us grasp and hold this learning with understanding and application so that we will be the leaders of tomorrow. Let us accept the challenge. Let us make America the leader. America must be the leader if we are to remain the great nation we are now. Let us think of the future and of our pace in it. We must lead or be led.

G.W.R.

RECOGNITION?

Students that are active in sports, Student Senate, BOILERMAKER staff, and many other noteworthy functions at PUCC seldom receive any recognition. Should they receive any recognition for their efforts besides their own personal satisfaction that they are doing something for the school to make it a better place to attend?

What can be done, or is there any way that we can give the students the recognition they so rightly deserve?

Recognition is given on campuses all over the United States. Members of the teams active in collegiate sports are able to wear letters and jackets to show that they are receiving recognition for their efforts at the university or college. Students active in extracurricular activities receive a key (medal) to show that they have been recognized. Members of intramural activities, whether women's, men's or co-educational, receive recognition in some way.

Do we receive anything like this at PUCC? I'll leave the answer to that up to your discretion.

NEWS SHORTS

The YELL LEADERS received their monograms for cheerleading. These letters are eight inches high with a yellow "P" and a black megaphone lying across the block "P."

* * *

The new programs for the day and night students who are going to register early are now in the front office. The official time for the beginning of pre-registration has been tentatively set for December 9.

* * *

Two new labor courses are being presented here at the Center; they are Labor Legislation and Labor Law. These courses are four-hour and three-hour courses, respectively. Both of the above courses will be taught by Professor Russell A. Bowser.

* * *

Registration for courses in Industrial Technology will be opened January 28 and 29. The classes will begin January 30, 1958.

* * *

On Friday, December 6, Professors Spalding and Frye met with new students in engineering and science to orient them in matters concerning course sequence and curriculum requirements. They also conferred with the lead teachers and others in the various departments.

* * *

During January 22, 23, 24 the bookstore will be buying the old books which can be resold for the next semester.

* * *

The total sale of basketball tickets amounted to about 165 dollars.

* * *

The cafeteria has adopted the Christmas spirit, and it has been redecorated by the waitresses.

* * *

The members of the faculty are holding their annual Christmas party in the lounge December 14, 1957.

STUDENT COUNCIL .

(Continued from Column 3, Page 1)

make a report on it to the Student Council. After the motion for the establishment of the SAU was seconded by Rob Svetovich and approved by the Council, Phil Szpiech appointed Mary Haburay, Ray Kohen, Jim Martin, Bob Foster, and Rob Svetovich to the committee.

A report on the progress of this committee is expected to be made at the first Student Council after Christmas vacation. Ray Kohen made a motion that the Council should hear a report on the Decorating Committee's progress. This proposal was seconded by Rob Svetovich and passed by the Council. Wally O'Bara discussed picture taking by a photographer, at the Winter Formal. Nothing has been decided as yet.

Joe Kubisz made a motion for adjournment, Jerry Engerski seconded the motion, and the meeting was adjourned.

P.U.C.C. TRAMPLES .

(Continued from Column 1, Page 1)

The game started with ICC and PUCC changing leads throughout the first half, with PUCC holding a 29-27 advantage at half-time.

When the tip for the start of the second half went to PUCC, the Boilermakers shifted into low gear and ripped the nets for nine straight points before ICC could score on a free throw.

The score stood at 29-28 until John Eckert hit for two from 25 feet out and Chuck Rayson connected on a set shot from the corner. From that time on the Boilermakers were never in danger of losing their lead and won easily.

One of the main factors for the victory was PUCC's determination not to run and shoot with the fast ICC quintet. PUCC tried it against its first three opponents and lost.

This Saturday, Dec. 14, PUCC will engage a real fast Ball State freshman squad at Ball State. This will be an acid test for the Boilermakers because, according to Coach Hayes, this freshman squad beat their own varsity during a scrimmage over the Thanksgiving holiday.

WANNA KNOW . .

(Continued from Column 4, Page 1)

decided to build it in the next room to the Pepsi machines. (They've been in there three weeks now.)

When you walk across the floor toward Mickey Isley's band, where is he? All you can see is a large glare of light reflected from the sign in front of the band which says "Mickey Isley." (More chicken wire and napkins!)

You have now put on your sunglasses to avoid the glare, and you look up. What is all that crepe paper up there for? There must be 70 or 80 pounds! Why it goes from floor to ceiling, across the ceiling and back to the floor! (What a waste of money!)

Let's go over to the bulletin board where there isn't so much crepe paper. I'm getting crepe paper claustrophobia. Oh, oh! Don't step too near the bulletin board because you might get lost in the snow. Some fool painted the wall!

What next? Well, I couldn't find out any more because someone pinched my nose in the door of Room 5. As I extracted my bleeding and smashed sniffer from the door jam, I heard Jerry remark, "There are 88 squares running north and south." (Squares??)

Personally, I think I will pull my suit out of hock and come to the dance to see this mess of things they hope to have here.

By the way, if you don't know when? December 21, 1957—Where? In the student lounge—Who's going to be there? Why everyone including some former PUCC students. These former students will be greeted in the lounge at a special reception between 8:00 and 9:00 by a faculty group consisting of those who have been here for several years.

OUT WITH THE OLD IN WITH THE NEW

Due to the inefficiency and outdatedness of our present lounge television, it is being replaced by a new television. The new television will be placed on a wooden platform in the south-west corner of the lounge.

The chassis and tubes are being donated to the school, and the cabinet is being constructed by our own students.

CONCERN OVER . .

(Continued from Column 2, Page 1)

that such control is carried to unneeded extremes.

Is such extraneous control actually necessary? A person while attending college is generally considered an adult by society. He is considered an adult capable of making his own decisions regarding both his personal morality and his status as a student. If as a student he fails to make the correct decision and fails scholastically, the university has exerted a negative control in forcing him to make a decision between success or failure as a student. The control of the university thus has on a student should be sufficient.

The morals of a student are his own. They were formed through parental and other influences many years before his arrival at a university. His morals may or may not be satisfactory as judged. Why, though, should it be the function of the university to try to govern the morality of the students? Adults everywhere find the laws of the land adequate for their private lives.

Were this a church school, with its restricted viewpoints in many matters, the very beliefs upon which such a school would be founded would demand that there be a method for the forming and shaping of morals at the college level. But this is not a church school. Nor is it some sect to form the new moral norms of society. This is a state university, existing at the pleasure of the state, supported by the state, and attended by students of all religions, beliefs, and morals. Auburn is an institution to provide a center of knowledge where the eligible citizen may continue to learn.

Auburn is not a finishing school. Nor is it some form of secular institution founded for the scattering of moral norms. The education of the mind and the pursuit of knowledge are to me the most important functions of a university.

THE CIRCLE "K" NEWS

The Circle "K" recently was told of a letter of commendation that will be forth coming from the Muscular Dystrophy Foundation for their excellent job in the Muscular Dystrophy Drive. The members canvassed the local area and collected \$166.83 during the Muscular Dystrophy March of Funds. The Circle "K" was informed that their results were outstanding in the region. We feel justifiably proud of ourselves. We wish to thank all who contributed or had part in the drive.

In our last article we mentioned a Nucleonics Day. We are still working on it. We don't have anything definite yet, but we hope to be able to publicize something definite soon.

In a recent meeting we completed the election of offices for the Circle "K." They are in addition to the previously elected President, William G. Diehl; Vice President, Peter Harlow; Thomas Feeney, Secretary; Dick Chizmar as Chairman of the Planning Committee and Jim Della Rocco as Chairman of the Publicity Committee.

You may have seen our poster on the Bulletin Board concerning the forthcoming Standard Oil Tour. You still have a little time to sign for it. It is a very informative tour, so don't miss it.

In line with the Christmas Season and the glad tidings it brings, we of the Circle "K" want to wish everyone a Merry Christmas and a Happy New Year.

We are reminded in this Jolly Season of our duty to our fellow men. This is the duty and basic element of the Circle "K."

Purdue Club of Lake County Alumni Briefs...

Some fifty members of the Purdue Alumni Club of Lake County gathered at San Remo's restaurant in Highland Wednesday evening, December 11 for an informal get-together. Principal guests from Lafayette were Joe Rudolph, Executive Secretary of the Purdue Alumni Association, and Bob DeMoss, Assistant Football Coach.

Following dinner, films of the recent Purdue - Indiana football game were shown to the group of men from Lake County. Rudolph and DeMoss commented on the showing of the team during the past season.

* * *

Final plans were made for the February 6th banquet at Tiebel's. It was announced that Dr. R. B. Stewart, Vice President of Purdue University, will be the principal speaker. Also present will be Guy Markey, Athletic Director, and Cordy Hall, Executive Secretary of the Purdue Alumni Scholarship Foundation. Tickets are now on sale for this event, and may be obtained from any of the club officers or by calling Purdue Calumet Center. The price of the ticket includes a chance on one of the \$200 worth of door prizes. The officers may be reached at the following listed phone numbers: James Snook, TE 8-5386, Lou Karas, TU 7-3731, Steve Manich, TE 8-0393 and Bob Steiger, EDison 3-4449.

* * *

Club President, James Snook, announced that those in attendance for the February 6th banquet will be for a special musical treat. The United States Steel Corporation Swing Orchestra, under the direction of Dave Simpson will give a 35 minute concert. Mr. Simpson, a former assistant of maestro Al Stewart is directing the group. They will play numerous selections of Fred Waring's arrangements.

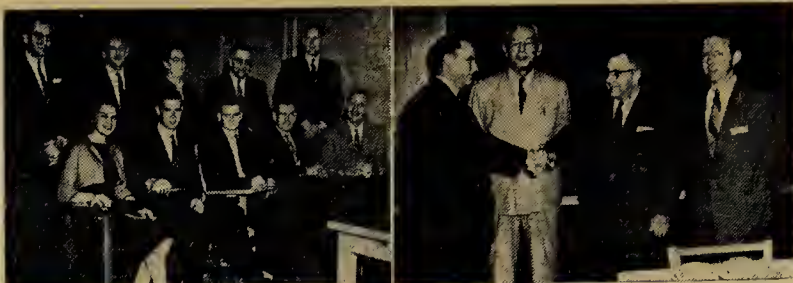

* * *

Club Secretary, Steve Manich, stated that about 30 additional new memberships have been obtained during the last few months. Membership cards have been mailed to all members, both new and old. Any member who may not have received his card may do so by contacting Mr. Manich at TU 6-2445.

SYMPATHY

The Boilermaker staff wishes to express its deepest sympathy to Mrs. Gyte and her family on the death of her brother-in-law on Thursday, December 5, 1957. Mr. Gyte left for Sterling, South Dakota, Friday, Dec. 6, 1957, and will return on Thursday Dec. 12.

Friday the 13th he left again, to attend a conference of all directors of extension centers on our campus at Lafayette.

Left: Visiting members of the faculty and student body from the campus.
Right: T. I. Banquet.

PROFESSIONAL ENGINEERING REGISTRATION EXAMINATION

It has been announced by Purdue Calumet Center that the refresher course for the Professional Engineering Examination will be open for late registration until Christmas.

CLASSIFIED ADS

PART-TIME JOB OPEN — Good hours. Excellent working conditions. No wages. Call University Employment Service.

PERSONAL—Mother, if you plan to come home before December 17th, call first. TE 5-5351.

FOR SALE—Assorted empty beer cans, cigarette butts, warped records, one broken love-seat, one alcohol-stained TV chair. Packed in garbage cans, boxes, or bushel baskets as requested. Call TE 5-5351.

WANTED—Interior decorator. Must guarantee completed job by December 17th. Call TE 5-5351.

PERSONAL—To whoever left his car in front of my house on the night of my party. Must claim before December 17th. Call TE 5-5351.

FRESHMAN ORIENTATIONJan. 18

REGISTRATIONJan. 28

DEGREE PROGRAM

Includes study in these fields: pharmacy, engineering, agriculture, forestry, home economics, general science, education, humanities, and physical education. Daytime or evening classes. Courses are identical with those taught on Lafayette campus; all credits are transferable.

TECHNICAL INSTITUTE

Designed to supplement work experience, courses are in six fields: building construction, chemical and metallurgical, civil, drafting and mechanical, electrical and industrial technologies. All work done by full or part-time students applies toward a two-year Associate Technical Aide diploma.

PROFESSIONAL FOREMANSHIP

A course for plant employees, this program is set up to train supervisors. The course may be completed in two years or taken over a longer period of time.
